

In Aloisov Paper Mill, in the foothills of the Jeseníky mountains, the unique story of our ecological EU ECOLABEL certified bag, is born. Its journey begins as waste paper, from which new recycled and kraft paper is born. The journey of our bag leads from these origins through optional printing to the counters of your favourite shop, where you can join in its story. Because of this unique life story, we call it „the family tree bag“.

ECOLOGICAL PAPER SHOPPING BAG
